FROM: Daniel J. Wilson *DJW*
Environmental Sanitation Specialist

SUBJECT: Suspected PCB contamination at
Number 2 Mound Street / 1725 North Wharf

4.17.87

During a phone conversation with Tom Pozzo, of Union Electric's Environmental Services Department through 554-2280, on April 14, 1987, we discussed the property at Number 2 Mound Street / 1725 North Wharf.

As a result of this conversation, Mr. Pozzo requested information that I believe will need our divisions approval before it can be released. Therefore, I am respectfully requesting permission to share with Union Electric any information that has been and will be accumulated regarding this site. This sharing will assist our division in obtaining datum regarding the usage of the building that we have not been able to obtain thus far.

cc: Charles G. Copley
Assistant Health Commissioner

Thomas Astorino
Deputy Assistant Health Commissioner
